RIPPLES

IN THE

STREAM

We the Calvert Students as separate classes and individuals form the ripples of our community. Together we form the stream.

As we begin to use our gifts and talents we learn to reach out and achieve opportunities and goals. We are determined to make ourselves respectable individuals of which to be proud.

During the past year we have grown together in many ways. Surpassing the highest patron drive goal ever with the smallest student population was a great achievement. School retreats have brought us together spiritually.

Eventually the final ripple will break away leaving the inner ripples to expand and grow to a permanent part of the stream.

God Bless You!

This sixtieth publication of the Calvertana is dedicated to Sister Mary Norene Brickner and Sister Mary Cordula Everett, who have each given fifty-five years of service to the Ursuline Order.

After teaching at Calvert for fourteen years, Sister Norene says she likes teaching in a small school, where students can be known on an individual basis. This causes a friendly atmosphere she adds.

Sister Norene teaches German and English and has taught World History. Formerly she had been a principal of four grade schools for fifteen years, including five years at Tiffin, St. Joseph.

Sister Cordula who has taught at Calvert for a total of thirty-three years, is presently teaching Math. In the past, she has taught Latin, Physics, General Science and group Guidance.

An atmosphere where I'm dealing with students on an individual basis makes Calvert a great place to be, she explains.

We, the faculty and the students of Calvert High School, would like to thank you both for the years of service you have given to the youth of Calvert as members of the Ursuline Order. May God bless each of you in his own special way.

Freshmen

... As a Freshmen, students find they are given many Golden Opportunities. For Freshmen to take advantage of these "opportunities," they must recognize their place in the student body. They learn their place and responsibilities throughout the year: Going on their first high school retreat - Receiving demerits for the first time - Getting the wrong directions to class from the upperclassmen - Eating last at lunch, and learning about seniority first hand from the seniors were the many enlightening experiences the Freshmen encountered.

Many memories and much ambition will stay with this class as they face the Golden Opportunities to come.

MAKING MEMORIES . . . Right from the start of the year, the Juniors had a sense of togetherness and just a great feeling of excitement among them. An unusual victory was won over the Seniors in the hall decorating contest during spirit week. Many long hours were spent planning the traditional prom. For many of them, their main interest is in having a good time, but this class definitely has its share of leaders, and has proved time and time again to be responsible.

Ponder a new tomorrow

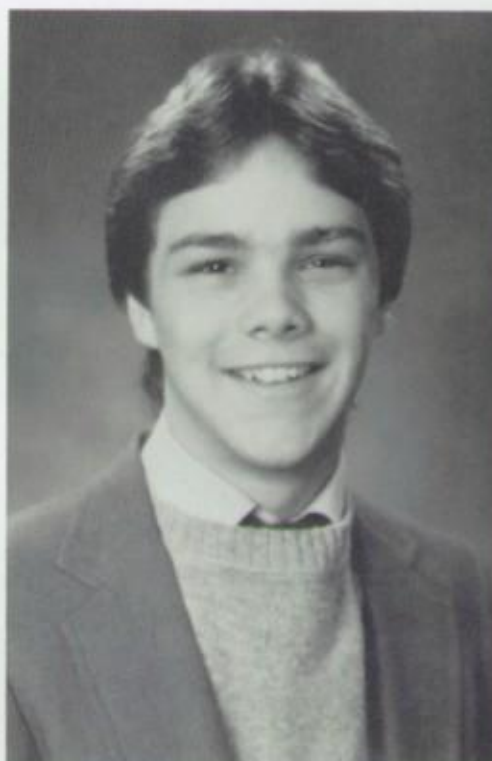

Pondering a New Tomorrow seems to be what us seniors are doing as we come to the end of our long awaited journey. Although there is much excitement as we seniors look ahead, we can always turn back on our great years here at Calvert.

As freshmen we started at Calvert with much excitement. Many new things were introduced to us such as: being able to go out for lunch, dances, new friends but our freshmen year seemed to pass by quickly.

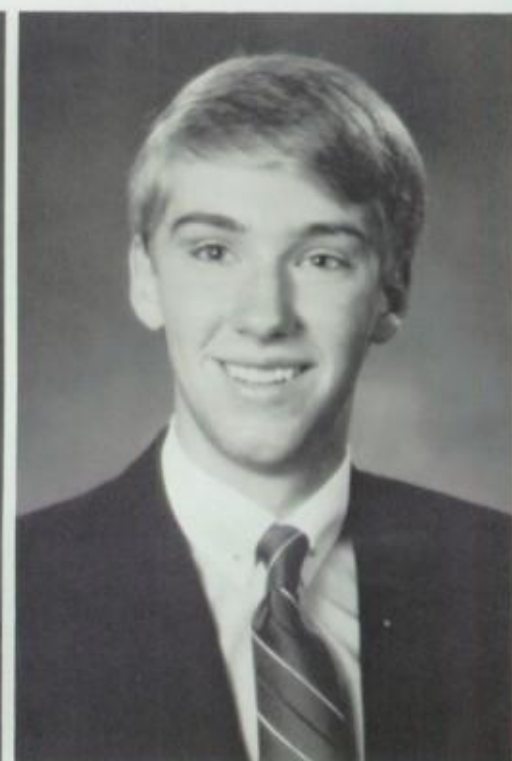

Before we knew it, we were sophomores. Some going on our first dates, buying class rings, and getting drivers licenses. As sophomores, we had more confidence and security than when we were freshmen. Then another year flew by.

Already we found ourselves as juniors. Finally upperclassmen, giving us a little more freedom. Our junior year was an exciting one. Many of us became closer during this year. Everyone was working together to raise money in the car washes, candy sales, glass sales etc . . . so we could decorate for prom. Which was a very special time for us as juniors. We thought nothing could be better than this year until we finally became seniors.

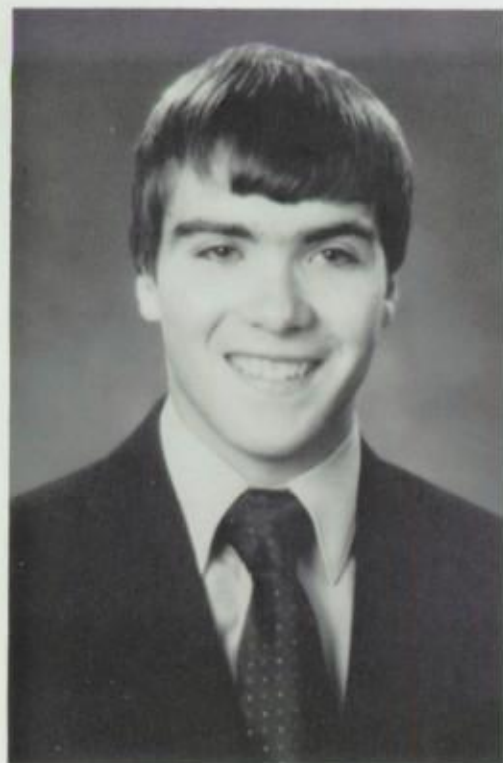

We can hardly believe it! Seniors! It seemed like we were only freshmen just yesterday. All four years were very special to our class, especially this year. Some of the things we shared were: last Homecoming (TP-ing, decorating, dance, bonfire) last football and basketball games, superdance, Sadie Hawkins, Senior Prom, Senior pictures, Senior mass and breakfast, and finally Graduation filled with smiles!

Spirit week . . . crazy colors, headbands, spirit ties - obnoxious clothes are the many imaginative and creative happenings of this week. Never Goodbye

*We came together many,
But end up as one
And now I'm full of sadness
For my days with you are done
But let us not forget the
Many good times we have shared
So one day if we meet again
No memories will be spared,
And if by chance we reunite
The pleasure will be mine
For you were once my family,
At least for a short time.
And don't think I'll forget.
The close relationships we held
Because in my mind were memories
And they are memories of love
With everyone of you —
Though are time together is through,
We'll always have a peaceful place
Held within our minds,
A place we can return to
When smiles are hard to find.
And in this place we all can grow
And learn just as before —
No, it shall not be forgotten,
I've passed beyond your door.
We all must go our separate ways,
But none of us afraid,
For always, everywhere we go
A friendship has been made.
And as I must leave I say farewell,
But I'll never say good-bye.*

The Seneca Cheerleaders took on a new format of cheering this year. What was new in the cheering style was that there were two different squads for football and basketball. The cheerleaders signed up for and tried out for the squad they wanted to cheer for.

Aside from this, the cheerleaders did their usual good job rallying up the spirit and enthusiasm for both the players and the spectators either at a game or at one of the pep rallies.

Under the supervision of Mrs. Maria Kanzig, the cheerleaders took on the task of making signs, baking cookies and cakes, planning our pep rallies, and stimulating the overall school spirit.

Leading the support and spirit, the varsity, reserve, and freshmen cheerleaders, carried everyone through the victories and losses of the teams.

Winning

We all understand winning. We've built a great nation around the individual will to win. To get ahead and stay ahead. At work or play, we all compete. We want to win.

Whirlpool Corporation is no different. We compete to win. But a company's will to win is no stronger than the collective spirit of individuals. The results produced no better than combined individual effort. Our will must be strong enough. Our results good enough to compete with the best. We believe they are.

Together we will continue to make and sell appliances second to none in quality and value. Because we want to win. Because winners get to keep competing and losers don't.
